Product Description

High Quality Wood Grain PVC Wall Board 5mm Flexible Bamboo Charcoal Decorative Wall Panel

Bamboo Crystal Wall Paneling is a new environmentally friendly product made from bamboo fibers extracted from bamboo. This sustainable material achieves the perfect balance between aesthetics and functionality, mimicking the natural beauty of wood grain while offering impressive performance characteristics. Waterproof and fire resistant, this wall paneling is a versatile and durable solution for both indoors and outdoors. Producing bamboo fiber wall panels can significantly reduce your carbon footprint. Bamboo absorbs large amounts of carbon dioxide as it grows, making it an effective carbon sink that helps mitigate climate change. Bamboo fiber wall panels are biodegradable and recyclable, making them an environmentally friendly alternative to non-biodegradable materials such as plastic sheets. At the end of its useful life, bamboo fiber panels can be composted or recycled, thus reducing waste and minimizing the impact on the environment.

Specification

Item	Value
Material	Bamboo Charcoal Wall Wanel
Size	1220*2440/2600/2800/3000*5/8mm
Length	Customer's Demand
After-sale Service	Online technical support

Advantages

Easy Installation, Environmental Protection, Flexible, Bendable, High Density, foldable. Fireproof + waterproof + Moisture-proof + anti-scratch + Sound-Absorbing, Mould-Proof. Lightweight. Clear textures, Variety of colours, etc.

Applications

Hotel/Villa/Apartment/Office Building/Bathroom/Dining/Living Room/Shopping Mall, etc
