Product Description

Factory Direct Sale Soundproof And Moisture-Proof Marble Bamboo Charcoal Board

The marble bamboo charcoal board adopts materials with excellent sound insulation function. It can effectively reduce the noise transmission indoors and outdoors, creating a quieter and more comfortable living or working environment. The moisture-resistant properties of the board make it suitable for use in areas prone to moisture or high humidity, such as bathrooms, kitchens or basements. It helps protect the underlying structure and prevent damage from moisture. The plates contain bamboo charcoal which acts as a natural air purifier. Bamboo charcoal has a porous structure that helps absorb and eliminate odors, pollutants, and excess moisture from the air, helping to improve indoor air quality. The marble surface of the panels adds a sense of elegance and luxury to interior spaces. It can enhance the overall aesthetic of a room, providing a premium look similar to real marble. Ideal for interior decoration use. Bamboo is a renewable resource known for its rapid growth, making the use of bamboo charcoal and bamboo-based materials both environmentally friendly and sustainable. Depending on the manufacturing process and materials used, the board may have fire-resistant properties, providing an additional safety feature in the event of a fire. Sound-proof and moisture-proof marble bamboo charcoal panels are versatile and can be used for many purposes, including walls, furniture, partitions and ceilings.

Specification

Item	Value
Material	Bamboo Charcoal Wall Wanel
Size	1220*2440/2600/2800/3000*5/8mm
Length	Customer's Demand
After-sale Service	Online technical support

Advantages

Easy Installation, Environmental Protection, Flexible, Bendable, High Density, foldable. Fireproof + waterproof + Moisture-proof + anti-scratch + Sound-Absorbing, Mould-Proof. Lightweight. Clear textures, Variety of colours, etc.

Applications

Hotel/Villa/Apartment/Office Building/Bathroom/Dining/Living Room/Shopping Mall, etc.
