## Product Description

### PET Marbled Fiber Flat Wall Panel Bamboo Charcoal Wood Veneer Wall Panel

PET Marbled Bamboo Charcoal Wood Finish Wall Panels are made from PET (polyethylene terephthalate) and bamboo charcoal materials, offering the benefits of a high-gloss marbled appearance and bamboo charcoal combined with a bamboo charcoal wood finish. This combination creates a unique and visually appealing design for interior decorative applications. PET High Gloss Marbled Wall Panels are known for their durability, moisture resistance and ease of maintenance. The bamboo charcoal wood finish adds a natural wood scent and beauty to the wall panels for a more organic look. Bamboo charcoal is waterproof, moisture resistant, fire resistant, environmentally friendly and formaldehyde free, so these wall panels are commonly used for cladding or decorating interior walls and are easy to install, making them a great choice for hotels, lobbies, conference rooms, residences and more. They offer a stylish, modern alternative to traditional wall coverings.
