Product Description

Product Description:

Bamboo Charcoal Wood Veneer

Bamboo Charcoal Wood Veneer is a modern and sustainable product made from bamboo panels and infused with bamboo charcoal. It is an ideal eco-friendly solution for interior decoration, furniture, and construction projects.

Our bamboo panels are carefully crafted and bonded together with PUR glue, ensuring a strong and durable finish. This makes it perfect for both residential and commercial use, while also being environmentally friendly.

The unique addition of bamboo charcoal not only gives the veneer its distinct dark color but also enhances its fire resistance. Our product has a fire rating of Level B, making it a safe and reliable choice for any project.

Bamboo Charcoal Wood Veneer is designed with a modern aesthetic in mind, making it a versatile choice for any design style. Its sleek and clean finish adds a touch of sophistication to any space, making it a popular choice for interior designers and architects.

Our product is available in various colors, including customer required options or colors from our color card. This allows for customization and flexibility in design, making it perfect for any project.

Our packaging consists of pallet and carton packaging, ensuring safe transportation and delivery of the product. This also makes it easier for storage and handling, making it a convenient choice for both manufacturers and end-users.
