Product Description

□

Product Overview: Bamboo Charcoal Wood Veneer

Type: Interior Decorative Wall Paneling

Design: Modern

Thickness: 5/8mm

Feature: Waterproof, eco-friendly

Material: Bamboo Charcoal, Bamboo Wood Fiber, PVC, PET

The Bamboo Charcoal Wood Veneer is a revolutionary product in the world of interior design. Made from a combination of bamboo charcoal, bamboo wood fiber, PVC, and PET, this wood veneer is not only visually stunning but also environmentally friendly.

The main feature of this product is its unique combination of materials, which allows it to possess both the beauty of wood and the durability of plastic. The use of bamboo charcoal gives the veneer a distinctive dark color with a marble-like pattern, making it a perfect fit for modern interior designs.

The 5/8mm thickness of this wood veneer makes it suitable for wall paneling, adding a touch of elegance and sophistication to any room.

It is also easy to install, making it a convenient choice for both homeowners and interior designers.

One of the most significant advantages of the Bamboo Charcoal Wood Veneer is its waterproof nature. This feature makes it suitable for use in any room, including bathrooms and kitchens, without worrying about damage from moisture or humidity.

Moreover, this wood veneer is eco-friendly, as it is made from sustainable bamboo and does not contain any harmful chemicals or emissions. It is also easy to clean and maintain, making it a practical and environmentally responsible choice for interior decoration.

In conclusion, the Bamboo Charcoal Wood Veneer is a versatile and high-quality product that combines the beauty of wood with the durability and sustainability of bamboo and plastic. Its modern design, waterproof feature, and eco-friendly materials make it a perfect choice for interior decorative wall paneling in any space.

Application

Our Bamboo Charcoal Wood Veneer is not just a simple wall panel, it can be used in various furniture, wall paneling and cabinetry projects. Its unique properties and natural texture make it a versatile material for modern design.

Features and Benefits

Sustainable: Made from bamboo, a renewable resource, our veneer is an environmentally friendly choice.

Eco-friendly: Our production process uses minimal chemicals, making our veneer safe for both you and the environment.

Healthy: Bamboo charcoal has natural anti-bacterial properties, making it a great choice for areas that require high hygiene standards.

Natural Texture: Each veneer sheet is unique, with its own natural texture, giving your project a one-of-a-kind look.

Modern Design: Our veneer adds a touch of modern and sophistication to any space, making it a popular choice for interior designers and architects.

High Quality: We use only the best quality bamboo and our veneer is produced with precision and attention to detail, ensuring its durability and longevity.

Easy Installation: Our veneer comes in a standard 1.22m width, making it easy to install and saving you time and money.

Final Thoughts

ZhuoKang's Bamboo Charcoal Wood Veneer is not just a product, it is a statement. With its unique properties and benefits, it is the perfect choice for any project. Add a touch of sustainability, style and quality to your space with our bamboo charcoal fiber wall panel. Order now and experience the beauty of nature in your home.

Introducing our latest product, the Bamboo Charcoal Wood Veneer - a unique and eco-friendly material that is perfect for interior design purposes. Our veneer is made of high-quality bamboo charcoal fibers, giving it a sleek and modern look.

With our customization service, you can choose the size and design of your bamboo charcoal wooden panel according to your specific needs and preferences. Whether you're looking for a statement wall piece or a whole room transformation, our decorative wall panels made of bamboo charcoal will surely add a touch of elegance to your space.

Not only is our bamboo charcoal wood veneer aesthetically pleasing, but it is also durable and easy to install. The width of 1.22m makes it suitable for various applications, including furniture, wall paneling, and cabinetry.

We use only the best PUR glue to ensure a strong and long-lasting bond between the veneer and the surface it is applied to. This also makes our product suitable for both residential and commercial use.

Experience the beauty and versatility of our Bamboo Charcoal Wood Veneer and elevate your interior design game. Contact us now to discuss your customization options and bring your vision to life.

Packing and Shipping:

Packing and Shipping - Bamboo Charcoal Wood Veneer

Thank you for choosing our Bamboo Charcoal Wood Veneer. Here is some information about the packaging and shipping of our product: Packaging:

The veneer sheets are carefully wrapped in protective plastic to prevent any damage during shipping.

Each package contains 10 sheets of veneer, with a total coverage of 20 square feet.

The package is then placed in a sturdy cardboard box for further protection.

A label with the product name and quantity is placed on the outside of the box for easy identification.

Shipping:

We offer worldwide shipping for our Bamboo Charcoal Wood Veneer. Our shipping partners ensure safe and timely delivery of your order.

Domestic shipping within the United States takes 3-5 business days.

International shipping may take longer depending on the destination country.

All shipping costs will be calculated at checkout based on the destination and weight of the package.

Please note that any additional customs or duties fees may apply for international orders, and these fees are the responsibility of the customer.

If you have any further questions about the packaging and shipping of our Bamboo Charcoal Wood Veneer, please don't hesitate to contact us. We want to ensure that your order arrives safely and in a timely manner.

Thank you again for choosing our product.
