Product Description

Product Description:

Our Bamboo Charcoal Wood Veneer is made from high-quality wood sheets with a thickness of 5/8mm, which makes it sturdy and durable. The bamboo charcoal color of the wood sheet gives it a distinctive and elegant look that will complement any interior design. Aside from its aesthetic appeal, our decorative wall panels bamboo charcoal are also fire-resistant. This feature makes it a safe choice for your home or office, ensuring the safety of your loved ones and property.

The length of our Bamboo Charcoal Wood Veneer comes in a variety of options, namely 2.44/ 2.6/ 2.8/ 3/ 3.2/ 3.4/ 3.6 M, or you can opt to get it customized to fit your desired specifications. This flexibility makes it convenient to use, and you can easily adjust it to fit your wall size and design.

Our product is perfect for those who are looking for a unique and stunning way to decorate their walls. Its combination of modern luxury style and natural wood texture will surely give your walls a distinct and elegant look.

Applications:

One of the main applications of this product is as a wall panel. The bamboo charcoal wooden panel not only adds a natural and organic touch to any room, but it also has the added benefit of purifying the air. The bamboo charcoal has the ability to absorb harmful chemicals and odors, making it a great choice for spaces such as living rooms, dining rooms, and bedrooms.

Another great application for this product is in office buildings. The modern and sleek design of the wood charcoal bamboo marble panel is perfect for creating a professional and sophisticated atmosphere. The durability of the panel ensures that it will last for years to come, even in high-traffic areas such as lobbies and hallways.

For educational settings such as schools, the bamboo charcoal wood veneer panel can be used as a bulletin board or as a decorative accent. The natural wood grain and texture of the panel adds warmth and character to any space.

In retail settings such as supermarkets, the bamboo charcoal wood veneer panel can be used as a backdrop for product displays or as a decorative accent. The panel's durability and ease of maintenance make it a great choice for high-traffic areas.

The bamboo charcoal wood veneer panel comes in two thicknesses, 5mm and 8mm, making it a versatile product that can be used for a variety of applications. The panel is packaged on a pallet and in a carton, ensuring that it arrives at its destination in pristine condition.
