Product Description

Modern Light Luxury Style 3D Charcoal Board Water Ripple Bamboo Charcoal Wood Veneer

The unpainted, three-dimensional water ripple pattern on the 8 mm bamboo fibre panels reflects the perfect harmony between nature and innovation. With the natural elegance of bamboo and the captivating water ripple pattern, these decorative panels transform walls into enchanting canvases. The bamboo fibre used in the paintless 8 mm bamboo fibre decorative panels brings a unique natural flavour. As a renewable resource, bamboo is not only environmentally friendly, but also brings natural warmth and authenticity to the interior. The three-dimensional wave design introduces an element of flow and movement to the interior space. Each wave captures and reflects light, creating different shadows and textures, transforming the wall into a masterpiece of art. This design adds depth and a sense of tranquillity to the environment. Panelling is a focal point that enriches living spaces by giving them a sense of elegance and authenticity. In commercial environments such as hotels, spas or restaurants, these panels can redefine the ambience. The three-dimensional water ripple design adds a layer of sophistication and visual appeal, while the bamboo wood fibre panels echo the commitment to sustainability.

Specification

| Item | Value |
|--------------------|--------------------------------|
| Material | Wood Veneer Wall Panel |
| Size | 1220*2440/2600/2800/3000*5/8mm |
